-  Provincial boundary

(Prepared By Arif Wibowo, 2013)

0 250 500 750 km
0 250 500 mi

Kerangka Metodologi Analisis Risiko DRR dan CCA

Mekanisme kelembagaan untuk konvergensi penilaian kerentanan dan risiko bencana/iklim

1: Data indikator keterpaparan, 2: Data sosial-ekonomi dan budaya, 3: Data ancaman dan Bencana iklim, dan 4: proses verifikasi data indikator kerentanan oleh daerah

Mekanisme kelembagaan untuk membangun sinergitas program API dan PRB antar sektor dan SKPD di daerah

Harapan:

- KLHK memerlukan dukungan pengembangan riset aksi (action research) ke depan untuk mendukung pemerintah dalam menyusun kebijakan dan perencanaan pembangunan yang cerdas iklim.

Terima Kasih
