

Progress on developing Convergence Framework CCA-DRR Second International TWIN-SEA Workshop Jakarta 24 March 2015

*Empowered lives.
Resilient nations.*

**Malikah Amril
Programme Manager DRR
UNDP Indonesia**

Outline

*Empowered lives.
Resilient nations.*

- Context and relevant
- Rational and background
- Governance and practice
- Project overview
- Progress of support
- Challenge and lesson learned

Context and relevant

*Empowered lives.
Resilient nations.*

UNPDF and UNDP CPAP 2011-2015 Outcomes Reference

UNPDF Objective

Strengthen National and Local RESILIENCE to Climate Change, Threats, Shocks and Disasters

UNPDF Outcome

Disaster Risk Reduction

Increased national resilience to disasters, crisis and external shocks

UNPDF Outcome

Climate Change and Environment

Strengthened climate change mitigation and adaptation and environmental sustainability measures in targeted vulnerable provinces, sectors and communities

CPAP Outcome UNDP

GOI and communities have minimized the risk of adverse impacts of disasters, through the application of DRR policies, regulations and practices

CPAP Outcome UNDP

National institutions and other key stakeholders are coherently and effectively addressing Climate Change (CC) adaptation and mitigation and ozone layer

RESILIENT NATIONS

*Empowered lives.
Resilient nations.*

**Democratic
Governance**

**Poverty
Reduction**

**Crisis Prevention
and Recovery**

**Environment
and Energy**

Rational and background

*Empowered lives.
Resilient nations.*

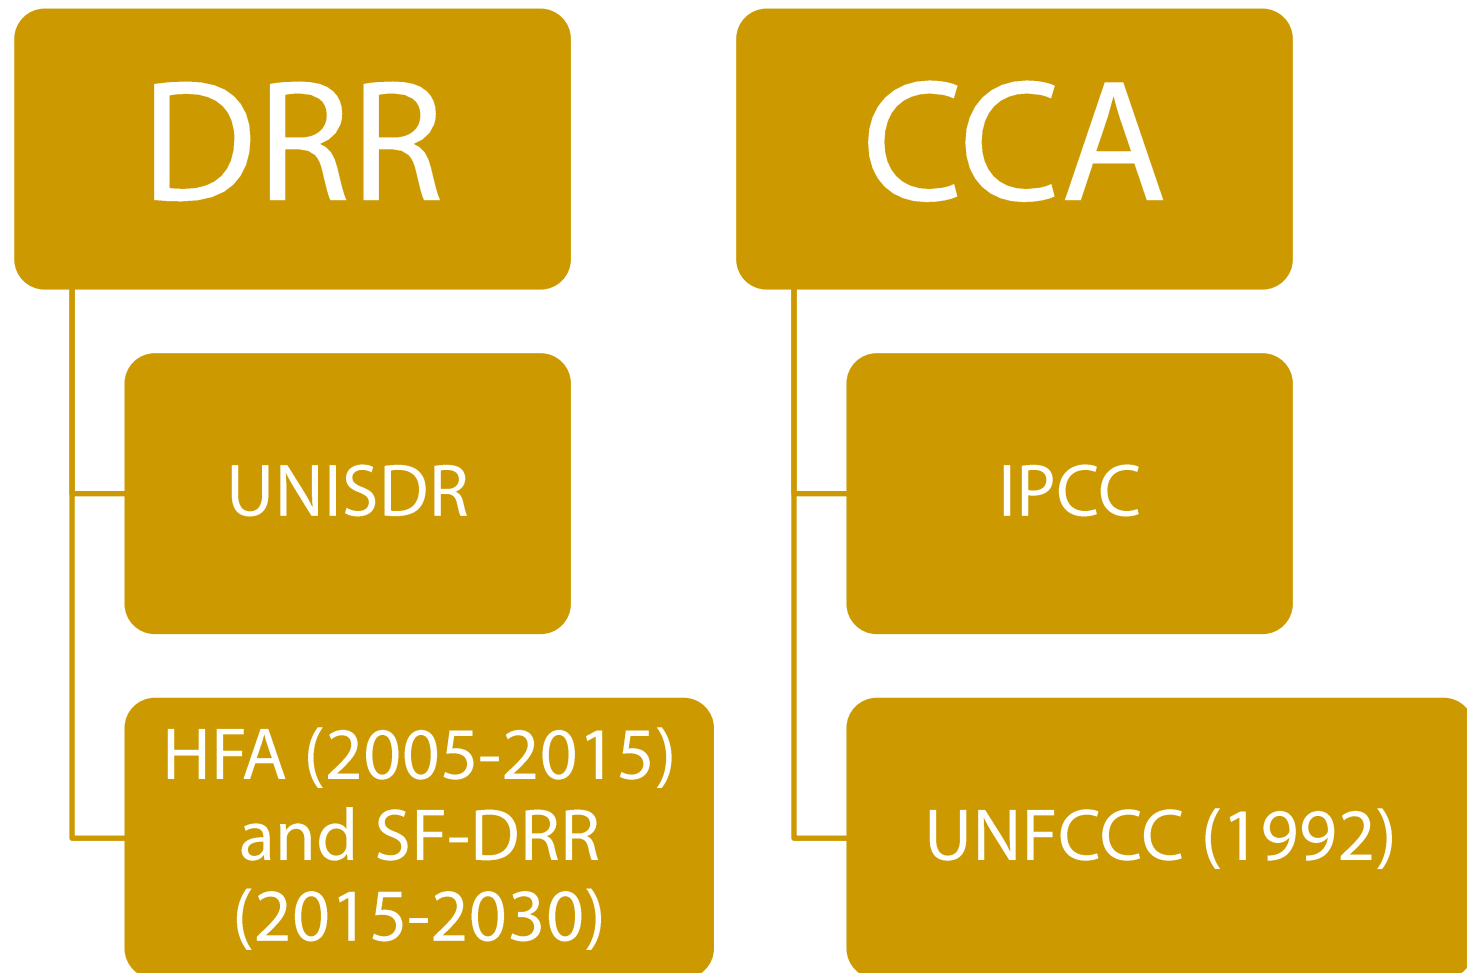

- Most frequent disasters in Indonesia are climate- induced
- Filling the (policy) gaps
- Breaking the silo and convening different actors
- UNDP Cross-practice areas initiatives
- Alignment with global commitment

Rational and background

*Empowered lives.
Resilient nations.*

Governance and practices

*Empowered lives.
Resilient nations.*

Governance

Law

Institution

Plan

DRR

Disaster Management
Law (Law No. 24/2007)

BNPB (National Disaster
Management Agency) –
established in 2008

BPBD (Local Disaster
Management Agency)

National Disaster Management
Plan (National Level)

Local Disaster Management
Plan (Provincial & District)

CCA

Environmental Protection
& Management (Law no.
32/2009) -> revision Law
No. 23/1987

KLH (Ministry of Environment) -
established in 1972

BPLHD (Local Environmental
Management Agency)

National Action Plan on
CCA (National Level)

Local Action Plan on CCA
(Local Level)

Governance and practices

*Empowered lives.
Resilient nations.*

Practice

Multi-stakeholder forum

Methodology

Data and Information

DRR

National DRR Forum

PERKA BNPB 02/2012
on guideline for disaster
risk assessment

Indonesian Disaster Data
and Information (DIBI)

CCA

CCA Working Group

Number of climate
vulnerability assessment

System Inventory Data
for Vulnerability Index
(SIDIK)

Project overview

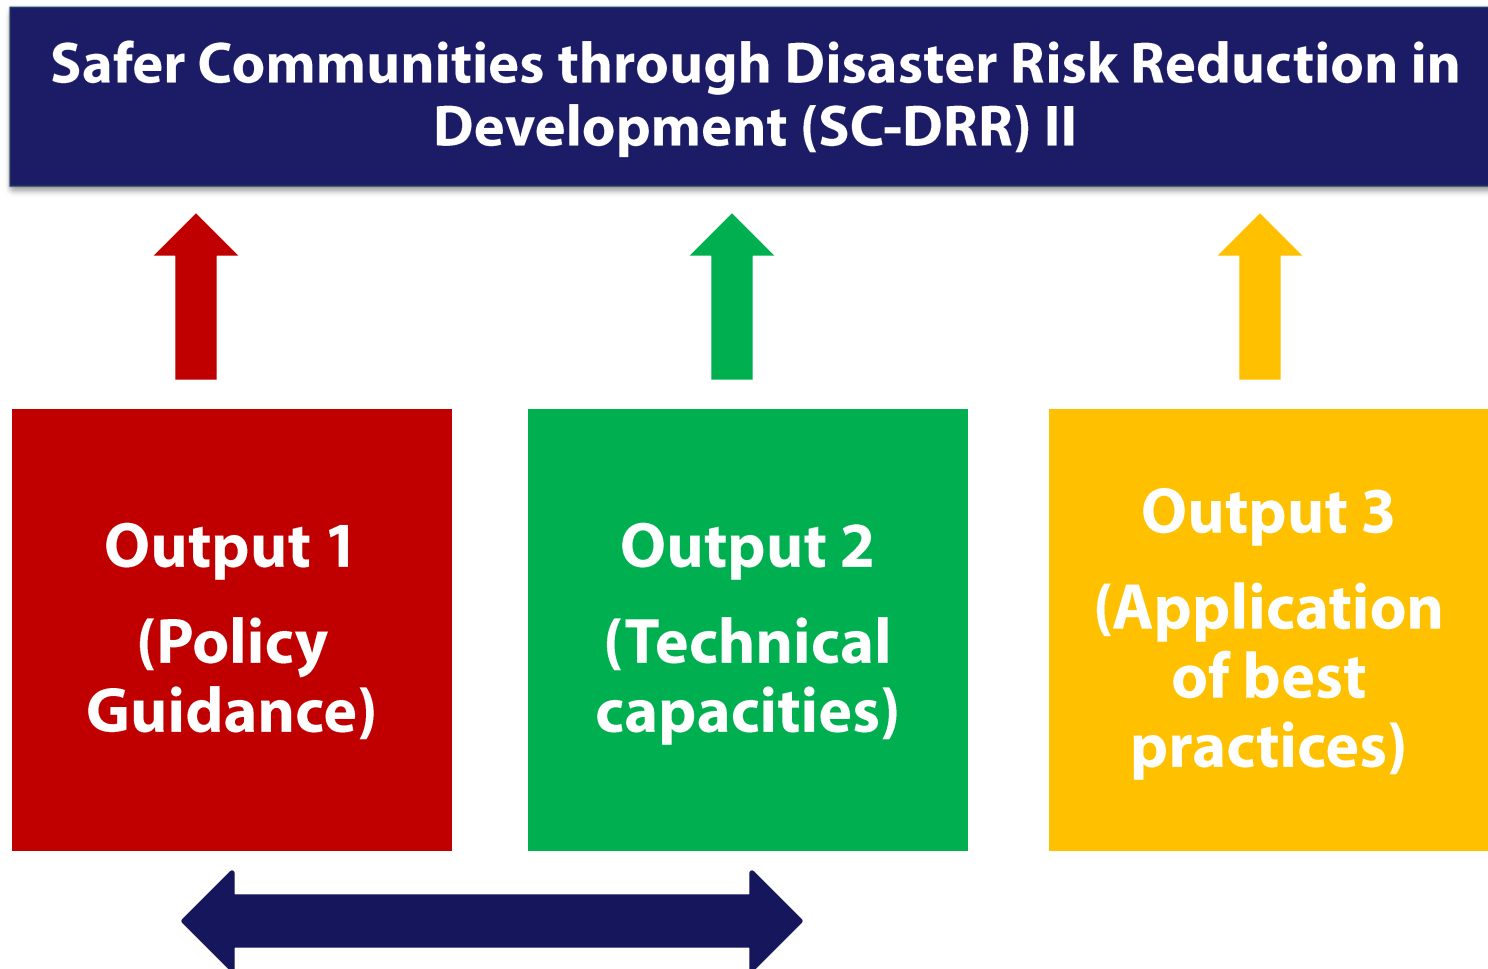

Project Goal:

Make disaster risk reduction a normal part of the development process that is embedded in core functions of the central and local government and its public partners

Strategic Objective:

Support the Government of Indonesia addresses climate risks in their existing disaster risk reduction initiatives.

Project Overview

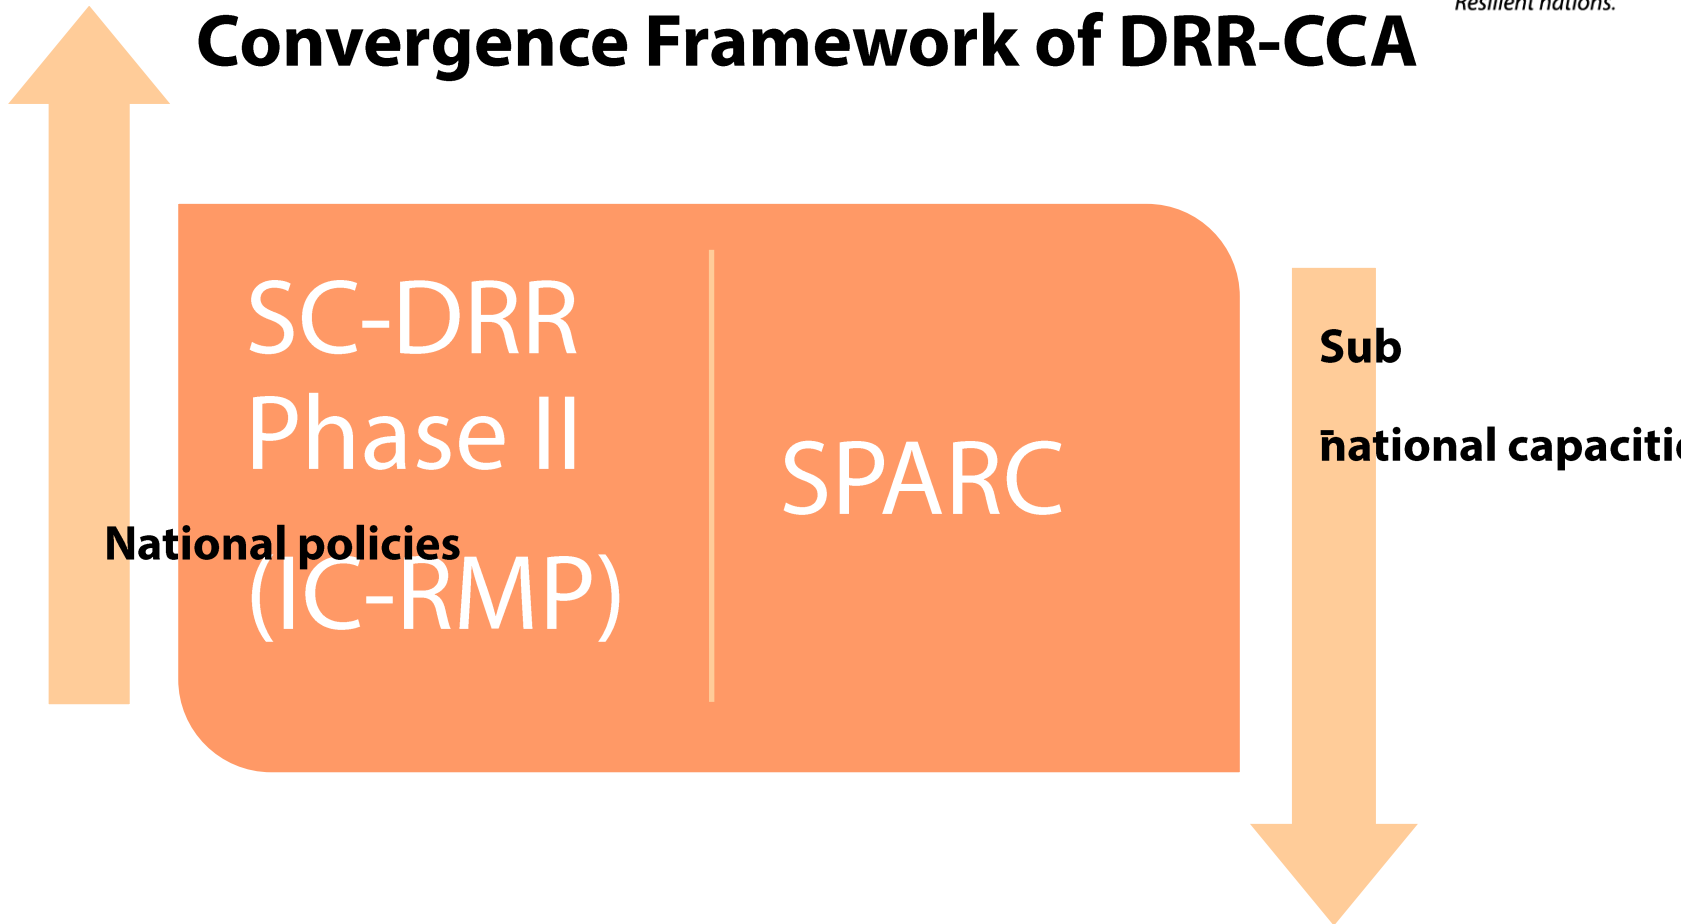

Project overview

Resilient nations.*

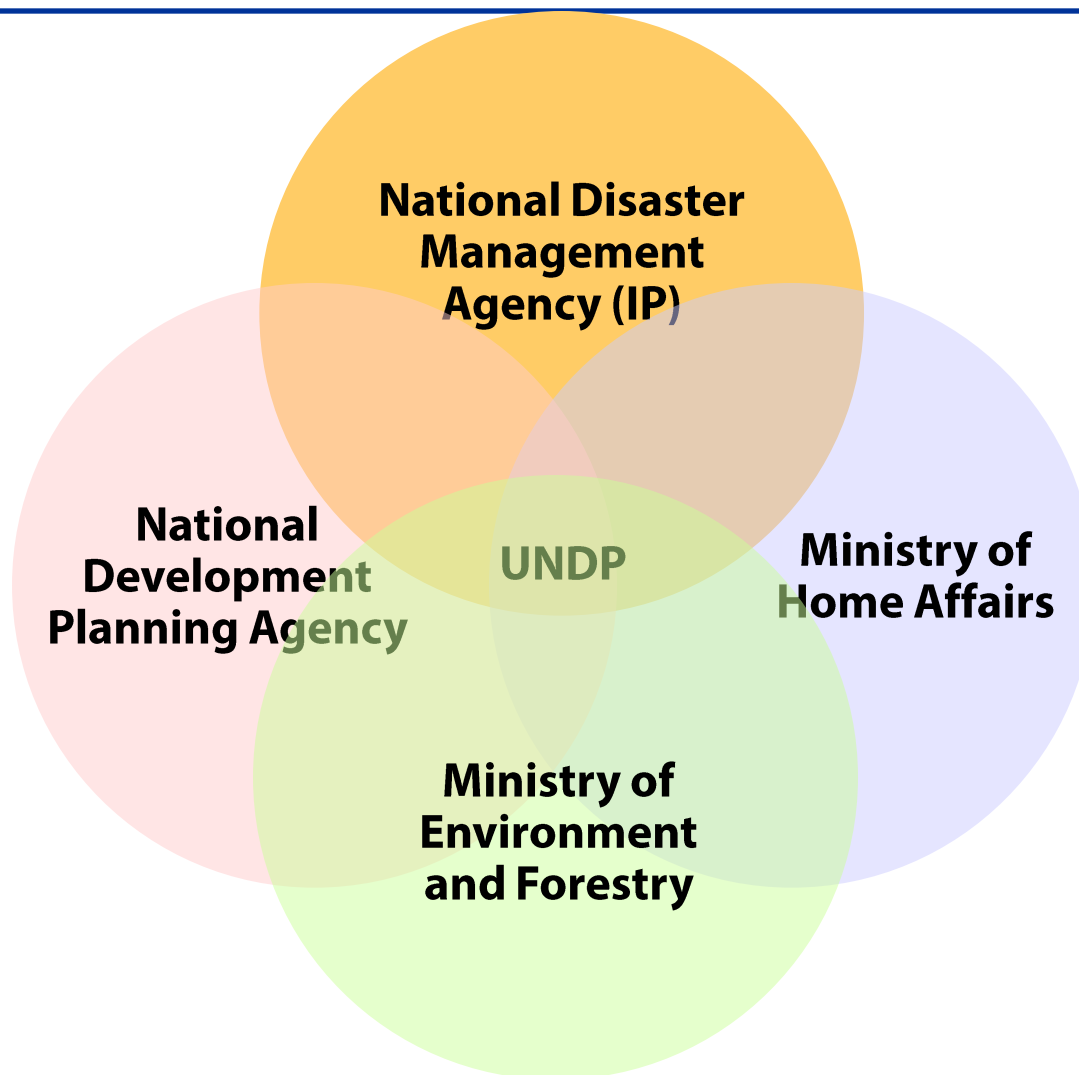

Convergence Framework of DRR-CCA

Project Overview

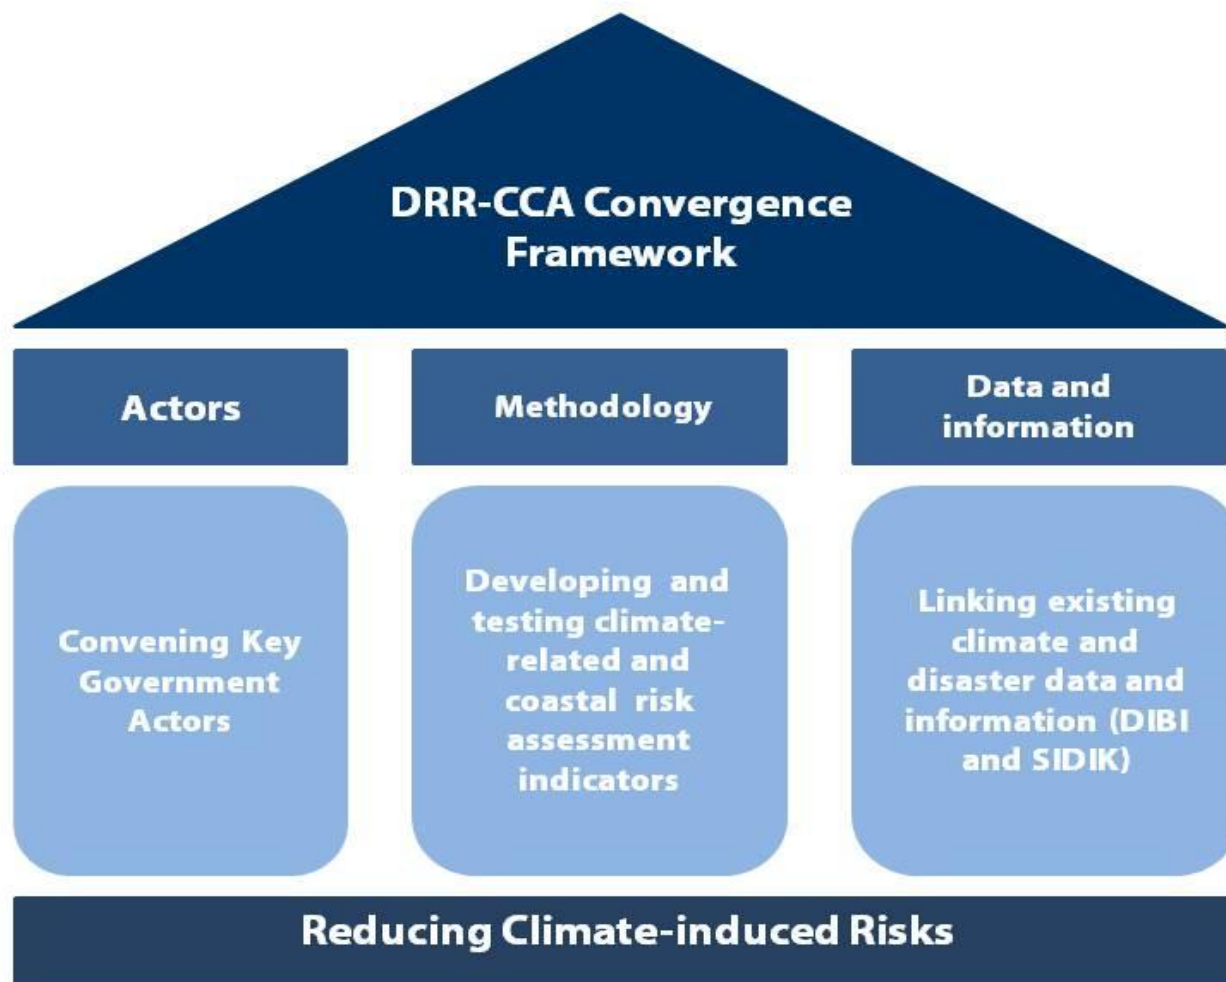

*Empowered lives.
Resilient nations.*

Project Overview

*Empowered lives.
Resilient nations.*

Progress of support

Proposing the convergence of CCA-DRR

1. Integrating risk assessments (climate and disasters)
2. Managing climate-induced disaster risks
3. Improving knowledge, skill and culture for community resilient
4. Reducing vulnerability and increasing capacity of local communities
5. Improving synergy among stakeholders
6. Effective governance in building resilience and sustainability

Progress of support

Proposing DRR and CCA convergence scheme

| | Integrating DRR into CCA |
|----------|--|
| Policy | Relevant CCA policy can consider the purpose of managing and reducing current and future disaster risks to build community resilient |
| Strategy | CCA strategy can consider DRR measures which include taming the hazards, improving capacities and reducing vulnerability |
| Program | CCA Program should be built upon climate vulnerability assessment which consider future climate-induced risks. |

Challenge and lesson learned

Challenges

1. Diverse regulations, institutions, and priority
2. Different methodologies
3. Data availability
4. Local government capacities

Lesson Learned

1. Alignment with national priority and need
2. Ownership of and partnership with key line ministries
3. Engagement of key stakeholders

*Empowered lives.
Resilient nations.*

THANK YOU
